CM1500S/1500V. It is suitable for every restoration and dry polishing tasks

The CM1500 single brush machine comes in two versions: the traditional version (CM1500S) and the vacuum version for dust collection (CM1500V). The single-brush high-speed CM1500S/1500V is

provided with an extraordinary balancing system thanks to which the machine is extremely manoeuvrable without any operator fatigue.

CM1500V with suction system. Through the spinning of the pad, a passive vac system channels the fine dust to a paper collection bag

CM1500V with suction system. The paper dust collection bag can be easily removed and changed, as it is easily accessible

For easy transport, just tilt the machine back on the rear wheels and push it

Gas spring assisted system which ensures disc pressure on the floor is kept constant regardless of the drive handle position. In this way the surface does not get burned or damaged

Very powerful, heavy-duty motor with rpm adjustment according to the machine strain

	Type of drive: direct	Working width Ø mm	Brush Ø mm	rpm rpm/min	Voltage V/ Frequency Hz	Tank capacity l	Pad holder Ø mm	Rated power/ Max. power	Machine dimensions mm L x H x W	Machine weight kg
CM1500S		500	-	1500	230/50	-	500	DC 1100	610 1260 540	38
CM1500V		500	-	1500	230/50	-	500	DC 1100	640 1260 580	37

The machine is manufactured in compliance with the directives 98/37 CEE, 73/23 CEE, 89/336 CEE and following modification 92/31 CEE, according to the technical regulations EN 60335-1, EN 292.

The steel parts are subject to treatment which guarantees a long life and makes the parts oxidation-proof.

KEY WORDS:

Machine for commercial use

E - Mains-powered machine with voltage value

Direct-drive single disc machine
